

Ovation Surbahar

As a customer-focused organisation, we are dedicated to providing a diverse range of Ovation Surbahar to our valued customers in New Delhi. We are an active exporter, manufacturer, and supplier of a wide range of Ovation Surbahar. The ovation model surbahar was created with the voluminous size of the traditional Surbahar in mind, which is approximately 60". Travelling with it is extremely difficult. The Ovation model is much more compact and portable. The traditional sound and tone are unaffected.
